County Administrator City Manager

Re: Sewer Taps and Annexation

Previously we discussed the issue of annexation at the time of connection to the Valley-wide Sanitary Sewer System. Attached are two documents which cover agreements between the City and the County on this subject.

The first is a Memorandum of Agreement dated October 17, 1979. Section 4 on Page 2, which is highlighted, covers the annexation/powers of attorney issue.

The second is the Joint Sewerage Service Agreement dated May 1, 1980. Section II.1.B. and II.2.B. both deal with the same matter.

I hope these will provide some historical background for the City's posture on this matter.
