Subject County R.F.P. Sewer maps

Date 1 - 22 19 86

In conversation with Bennett in County planning H.E. indicated that the County has not proceeded with the map update which was proposed. He has been holding back for your approval to proceed, this along with notice from you of how payment for the project is to be made. The estimated cost for the project was set at about \$5000.00? Pay out of Silver Fund in the entirety or City \$2500.00 and County \$2500.00. As soon as you notify Bennett to proceed he will send out an R.F.P. and let the contract from the County.
