RE: 1987 Sewer Fund Budget

Dear Gordon:

Enclosed is another set of documents that provide the background and justification for the proposed sewer rate to the Fund.

As you recall, all of this material was reviewed with the Council, Commission and City County staff at the Kettle on the 16th of December, 1986. All of the background was also part of the Sewer Management Report which I reviewed with you during November. By the way, I am enclosing your copy of the Report for your reference. I did appreciate you and your staff's presence at the three public forums. It was unfortunate that Dr. Cianko missed the meeting at the church last week.

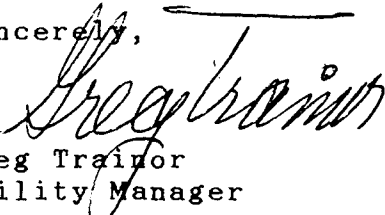

Please let me know if there is further information I can provide.

Attached is a copy of the Council's ordinance raising the sewer service charge from \$7.45 per EQU to \$9.40 per EQU.

The first reading took place January 21, 1987 with publication on January 22, 1987. The second reading is scheduled for February 4, 1987.

As indicated by Steve Clark of Boettcher and Company the rate needs to be formally adopted by the County Commissioners. The 1987 budget should also be formally acted upon by the County Commissioners.

Sincerely,

Greg Trainor
Utility Manager
