RECEIVED JAN 28 1994

Attention: John R. Crouch, Chairman Mesa County Commissioners

RE: Valle Vista Interceptor, Mesa County.

Dear Mr. Crouch:

This letter is to confirm our conversation of January 25, 1994.

You had inquired into the status of the Valle Vista Interceptor project. Subsequent to our conversation, I spoke to Debbie English, Financial Assistance Program Unit Leader of the Water Quality Control Division. She had been in a meeting with U.S. EPA regarding the subject project. Debbie indicated that this project has not and will not be put on hold or delayed in any way. The Division considers this project viable and intends to see this project through to its conclusion. We understand the rather tight construction window the county is facing to complete the project. Please let us continue to work together to correct this unfortunate situation.

If you have any questions, please contact me at 248-7150.

Sincerely,

Dwain P. Watson  
West Slope District Technician  
Water Quality Control Division
