Attn: Kieth Rose and Mike Tucker

Dear Kieth and Mike:

This letter is to confirm our conversations of January 27, 28 and 31, 1994.

We met to discuss the proposed Orchard Mesa Sanitation Districts sewer line route to serve Valle Vista subdivision. Mike reviewed the proposed plans as prepared by Westwater Engineering on January 28 and physically inspected the sewer line route on January 31.

Keith Rose's comments regarding the proposed sewer included:

1. No endangered species ~~other than possible migratory~~ would be affected by the proposed project.
2. No specialized habitat that endangered species might require would be affected by the proposed project.

Mike Tucker's comments regarding the proposed sewer include:

1. This project would have no impacts to wetlands of major significance.
2. This project will not have any impacts on endangered, threatened, or candidate species.
