

WED 5/4

MEMORANDUM

TO: Joe Crocker, Public Works Director
Sue Kaliszewski-Gormley, Support Services Director
FROM: Mike Casey, County Administrator
RE: Modified Sewer Regulations/Proposed by the City of
Grand Junction

The City of Grand Junction has been rewriting its Sewerage System regulations over the past six months, adopting them on a section-by-section basis. They have developed a revised Section 4, addressing "System Expansion", and are asking Mesa County to provide comments on their work.

I would appreciate your reviewing the draft and providing me with your comments. I anticipate providing a recommendation to the Board for its discussion prior to developing a formal response to the City on this matter.
