September 13, 1977

Edward F. Carpenter, P.E.  
Plateau Engineering, Inc.  
840 Rood Avenue  
Grand Junction, CO 81501

Dear Mr. Carpenter:

This will acknowledge your letter of August 15, 1977 regarding the proposed waste treatment facilities for Grand Junction. The Water Quality Control Commission has approved a federal grant to Grand Junction for design of a waste treatment facility subject to certain restrictions. One of the restrictions was that the engineers employed by the city were to give further study to the feasibility and cost effectiveness of land treatment, before proceeding to design of the treatment facilities.

The matter of proceeding to final design will come before the Commission at their regular meeting on October 4, 1977. Your request to address the Commission will be scheduled at that time. Also your report was furnished to the Commission members and the Water Quality Control Division staff for review.

I anticipate that this matter will be on the agenda for 11:00 A.M. at the regular Commission meeting on October 4, 1977.

Sincerely yours,

Evan D. Dildine, P.E.  
Technical Secretary  
Colorado Water Quality Control Commission
