Re: Design Review of Plans and Specifications
Prepared by N. H. P. Q. for Modification
to Grand Junction's Existing Wastewater
Treatment Facility - 080 337 02

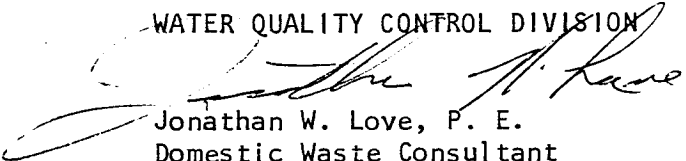

Dear Mr. Jensen:

At this time the Environmental Protection Agency has not approved the City of Grand Junction's proposal to construct a regional facility.

We will complete our design review of the above mentioned plans and specifications after the Environmental Protection Agency has approved your regional proposal to phase out the existing wastewater treatment plant.

Very truly yours,

WATER QUALITY CONTROL DIVISION
