ADDENDUM NO. 1

DATE: September 22, 2015
FROM: City of Grand Junction Purchasing Division
TO: All Offerors
RE: Water Tank Drop-On Kits IFB-4108-15-NJ

Offerors responding to the above referenced solicitation are hereby instructed that the requirements have been clarified, modified, superseded and supplemented as to this date as hereinafter described.

Please make note of the following clarifications:

1. **Question 1:** "On the specification I didn't see anything about supplying the 3" pipe for the Plumbing on the spray Nozzles?"
Response: The manifold assy. for the front should include the plumbing to get it to the front of the truck.
2. **Question 2:** "On Item 14, Does that mean you want two extra front spray heads with controls, Meaning one set for the truck and one extra set?"
Response: The additional spray heads for the front are just to mean two for the front. Spray heads should consist of two (2), front one (1) RH side, one, (1) LH side and two rear spray heads for a total of six (6).
3. **Question 3:** "Its not clear on how it is to be mounted to the truck"
Response: Item 8, Section 3.2 of the "Original Solicitation" describes the truck mounting requirements.
4. **Question 4:** "There is no PTO Specification."
Response: The truck PTO and pump are already installed on the truck and only the series 30 motor coupled to the water pump is required.
5. **Question 5:** "Is the Plumbing suppose to be all welded and assemble to the Tank, Except the front spay heads and pipe."
Response: All plumbing shall be attached to the tank except for the front spray bar manifold and piping.
6. **Question 6:** "I also need to know the PTO RPM that the truck will be running at?"
Response: See response on Question 4 of this Addendum 1.

The original solicitation for the project noted above is amended as noted.

All other conditions of subject remain the same.

Respectfully,
