- 2.14. Protection of Persons & Property: The Contractor shall comply with all applicable laws, ordinances, rules, regulations and orders of any public authority having jurisdiction for the safety of persons or property or to protect them from damage, injury or loss. Contractor shall erect and maintain, as required by existing safeguards for safety and protection, and all reasonable precautions, including posting danger signs or other warnings against hazards promulgating safety regulations and notifying owners and users of adjacent utilities. When or where any direct or indirect damage or injury is done to public or private property by or on account of any act, omission, neglect, or misconduct by the Contractor in the execution of the work, or in consequence of the non-execution thereof, the Contractor shall restore, at their own expense, such property to a condition similar or equal to that existing before such damage or injury was done, by repairing, rebuilding, or otherwise restoring as may be directed, or they shall make good such damage or injury in an acceptable manner.

Uncovering & Correction of Work: The Contractor shall promptly correct all work rejected by the Owner as defective or as failing to conform to the contract documents whether observed before or after substantial completion and whether or not fabricated installed or competed. The Contractor shall bear all costs of correcting such rejected work, including the cost of the Owner's additional services thereby made necessary. If within one (1) year after the date of completion or within such longer period of time as may be prescribed by law or by the terms of any applicable special guarantee required by the contract documents, any of the work found to be defective or not in accordance with the contract documents, the Contractor shall correct it promptly after receipt of a written notice from the Owner to do so unless the Owner has previously given the Contractor a written acceptance of such condition. The Owner shall give such notice promptly after discover of condition. All such defective or non-conforming work under the above paragraphs shall be removed from the site where necessary and the work shall be corrected to comply with the contract documents without cost to the Owner. The Contractor shall bear the cost of curing all work of separate Contractors destroyed or damaged by such removal or correction. If the Owner prefers to accept defective or non-conforming work, Owner may do so instead of requiring its removal and correction, in which case a Change Order/Amendment will be issued to reflect an appropriate reduction in the payment or contract sum, or, if the amount is determined after final payment, it shall be paid by the Contractor.
- 2.19. Change Order/Amendment: No oral statement of any person shall modify or otherwise change, or affect the terms, conditions or specifications stated in the resulting contract. All Change Orders/Amendments to the contract shall be made in writing by the Owner.

3. Statement of Work

- 3.1. Project Description: The purpose of this bid is to receive quotes from qualified contractors to provide the following and other related equipment to the City's Street Maintenance crews for an annual city wide "Spring Cleanup" Program. The 2016 program begins April 11, 2016 and ends on April 22, 2016, City crews will need the equipment delivered on Thursday, April 7, 2016 and will have the equipment ready for pick up by the supplier at the earliest date of Tuesday, April 26, 2016. However, an option for extension may be needed depending upon the extended program length. The contractor will be notified of the extension on or about April 22, 2016. Use of the equipment will involve citywide canvassing of all streets and alleys to remove residential/household refuse in a campaign commonly referred to as "Fresh as a Daisy." This equipment will be operated by experienced City staff, who will be working in concert with other, very similar, city-owned equipment to complete this program within the assigned time period.

TIRE WEAR: Because these vehicles will be operated primarily on hard surfaces, tire wear should be considered and the cost thereof included in the bid price as it shall be at the vendor's expense. Each bidder shall supply the manufacturers' specification on tire tread depth. The Owner will only allow a maximum of 20 % wear on each tire when the skid loaders are delivered. The Owner will have the final approval if the tire wear is satisfactory or not (20% or less wear).

- 3.6. DELIVERY & PICK-UP OF EQUIPMENT: In preparation for start-up of the program on April 11, 2016, all equipment must be delivered to the City on the morning of Thursday, April 7, 2016. After the program is completed on April 22, 2016 (unless a program extension is needed), crews will require approximately two (2) days to "Post-check" the equipment, after which it can be picked up by the supplier on the end of the day on Tuesday, April 26, 2016.
