Summary (crime scenes activity, court appearances, complex cases, use of resources, problems or unusual events):

Just like last month, Trent Rundquist continues to over-see the training of several CBI Latent Print Examiners. Two have completed training. CBI hired a new examiner for the Grand Junction Laboratory, so he started that individual's training this month. Trent also taught the crime scene classes for the Western Colorado Community College Academy with assistance from the other criminalists.

The CMU Forensic Science Club had a tour of our facility on April 6th.

Mary Greenmun, a volunteer in the Evidence Section for over 14 years, was honored at the BeaconFest Senior Fair on April 21st. She had been nominated for the Volunteer of the Year award that went to another nominee.

It might not seem like much, but we were finally able to rekey the off-site warehouse and several padlocks to the same key used at our present location. The warehouse and other locks were still using the keys from the old building. We were able to eliminate several keys the Evidence Techs had to carry for their daily duties. Sixteen locks were replaced.
