

## ADDENDUM NO. 1

**DATE:** March 31, 2017  
**FROM:** City of Grand Junction Purchasing Division  
**TO:** All Bidders  
**RE:** Hook Lift Truck IFB-4337-17-SH

Bidders responding to the above referenced solicitation are hereby instructed that the requirements have been clarified, modified, superseded and supplemented as to this date as hereinafter described.

Please make note of the following clarifications:

1. **Question #1:** Section 18 under Cab and Chassis asks for two additional amber strobe lights (oval 6 ½" x 2 ¼") to be mounted on rear of frame flush with body, one of the left and right side near the tail lights. Are these lights down on the bumper?

**Answer:** The rear facing strobes can be mounted inside or outside of the frame rails assuming there is room for brackets. If space is prohibitive due to manufacturer design, smaller rectangle amber strobes may be substituted. An example would be a Total Source MS-Series 4 ½" x 1" or similar.

The original solicitation for the project noted above is amended as noted.

All other conditions of subject remain the same.

Respectfully,

Susan Hyatt  
City of Grand Junction, Colorado
