Summary (crime scenes activity, court appearances, complex cases, use of resources, problems or unusual events):

Jordan's computer training is already paying for its self (the class was paid through federal funding). We had a DVR that potentially had video that was critical to an investigation. The DVR would not work. Using hardware and software the department owns, Jordan was able to examine the data on the hard drive and recover some of the video. Ultimately, it was determined the DVR was not recording at the time we needed. This is something that a few months ago, Jordan would not have had the skills or knowledge to attempt.

Evidence Techs attended Patrol's briefings to demonstrate CBI's web based submission procedure and update with on-going issues with submission to the Lab.
