Summary (crime scenes activity, court appearances, complex cases, use of resources, problems or unusual events):

Christine Camp was selected to fill the Evidence Technician vacancy. She was promoted from Records.

The New World – FileOnQ interface was activated. It took two weeks to merge the records from FileOnQ to New World. We'll continue to monitor the interface for several weeks, to ensure there are not any problems, before we have officers stop printing Property Reports. With the interface, all property entered into the FileOnQ software will be automatically entered into the LERMS system.

DigitalOnQ was also activated. There are a handful of officers testing this system. DigitalOnQ will allow officers to upload digital evidence to a server and be able to review the evidence without evidence staff having to make copies.
