

Purchasing Division

ADDENDUM NO. 1

DATE: April 20, 2018
FROM: City of Grand Junction Purchasing Division
TO: All Offerors
RE: 2018 Contract Street Maintenance – High Density Mineral Bond IFB-4515-18-DH

Offerors responding to the above referenced solicitation are hereby instructed that the requirements have been clarified, modified, superseded and supplemented as to this date as hereinafter described.

Please make note of the following clarifications:

1. Section 3.2.6 of the IFB shall be amended to include the following additional paragraph:
 - C. The awarded Contractor and the Owner agree that this Proposal or subsequent contract may, upon mutual agreement of the Contractor and the Owner, be extended under the terms and conditions of the contract for three (3) additional one (1) year contract periods, contingent upon the applicable fiscal year funding.
2. Q. Would 4Seasons Pourable Pothole Filler be acceptable for use on this project?
 - A. Crack filling and other maintenance has already been performed on the streets selected for this project. Only products meeting the specifications provided in section 3.3 of the bid documents will be considered for the application of High Density Mineral Bond.
3. Q. I was looking into your project for HA5, would you accept a bid for a Type II slurry seal? Not sure how familiar you are with a Type II slurry but a good majority of Colorado municipalities have been using it in their preventative maintenance plans for years. The City of Gunnison has done a fairly large program also on a yearly basis. The life of the product is longer than HA5, it is a better friction course for winter, streets are opened up in 2-4 hours instead of 24, and most importantly we have seen prices come in substantially less. We would love the opportunity to bid your project if made available.
 - A. We are not considering the use of Type II Slurry seal for this project. If Type II slurry seal is desired for future application, it will be solicited under a separate solicitation process.

The original solicitation for the project noted above is amended as noted.

All other conditions of subject remain the same.

Respectfully,
