

Purchasing Division

## ADDENDUM NO. 8

**DATE:** July 11, 2018  
**FROM:** City of Grand Junction Purchasing Division  
**TO:** All Offerors  
**RE:** Persigo Wastewater Treatment Plant Diffuser Outfall Improvements Project  
(RE-BID) IFB-4534-18-DH

Offerors responding to the above referenced solicitation are hereby instructed that the requirements have been clarified, modified, superseded and supplemented as to this date as hereinafter described.

Please make note of the following clarifications:

1. Q. Per Section 1.4 – B – 5 within the Cellular Grout specification, this paragraph suggests that the Contractor is to provide laboratory testing of cellular grout. Is this correct?  
*A. Yes, the Contractor shall provide quality control (QC) testing on the cellular grout in regards to wet density, air content, and compressive strength per Section 3.3 within the Cellular Grout specification. Laboratory testing needs to be used to verify the compressive strengths.*
2. Q. Per Section 1.4 – D – 4 within the Cellular Grout specification, what mix design testing of cellular grout is required prior to field work?  
*A. Refer to Section 1.4 – D – 7 for the proposed mix design test results that the Owner/Engineer will want to see on the cellular grout submittal. The City wants the mix design to have already been determined and approved before the Contractor is ready to start grouting the annular space in the field. The Contractor can submit a mix design that has been developed and approved for use on other projects, as long as, the mix design has been developed within a one-year period from the time grouting begins on the diffuser outfall project.*
3. Q. Per Section 1.4 – F within the Cellular Grout specification, are the items in this section to be approved (signed and stamped) by Contractor's Professional Engineer?  
*A. No, the Contractor does not need to provide calculations and details of cellular grout placement that are prepared by a licensed Professional Engineer. The Contractor will still be required to provide a work plan for placing the cellular grout per Specification 02450.*

The original solicitation for the project noted above is amended as noted.

All other conditions of subject remain the same.

Respectfully,

A handwritten signature in black ink, appearing to read "Duane Hoff Jr.", is written over a white rectangular background.

Duane Hoff Jr., Senior Buyer
