SECTION 3.0: SPECIFICATIONS/SCOPE OF SERVICES

- 3.1 General:** The City of Grand Junction, Colorado (City) is seeking proposals from qualified consultants to create an update to the City’s Comprehensive Plan.

3.2 Background:

A. Community Context

Grand Junction, Colorado is the gateway to the mountains and canyonlands of western Colorado and eastern Utah. Centrally located between Denver, Colorado (250 miles east) and Salt Lake City, Utah (270 miles west), Grand Junction is surrounded by 1.2 million acres of public lands and has easy access to the Rocky Mountains and western Colorado’s incredible landscape.

The City of Grand Junction was first settled in 1881 and was incorporated in 1882. It became a Home-rule city in 1909 by adopting its own charter pursuant to Article XX of the Constitution of the State of Colorado. The City operates using the Council-Manager form of government. It provides a full range of services including public safety (police, 9-1-1 communication center, fire, emergency medical services and emergency transport), public works (highways, streets, and sanitation), culture-recreation (parks, cemeteries, swimming pools, golf courses, and general recreation), utilities (water and wastewater) planning and development, visitor services, and general administrative services.

The City of Grand Junction currently covers 39.8 square miles and serves an estimated population of 64,900 people being 78.7% Caucasian and 16.8% Hispanic or Latino.

The Community Development Department is responsible for the processing of all development applications and is responsible for long range community planning. The City contracts with Mesa County for building permitting and inspections.

B. Project Overview

The City last completed a Comprehensive Plan in 2009 after an extended 30-month exercise in public outreach and public hearings. The 2009 plan was adopted jointly with the County as there are agreements between the two jurisdictions that areas within the Persigo 201 Service Boundary are required to annex to the City upon development of a property. Since 2009, the City has continued to mature and community desires and priorities have evolved and changed. To ensure the Comprehensive Plan continues to be a useful policy document that represents the vision and collective desires of the community, the City is interested in pursuing a comprehensive update to the plan to respond to changing conditions and community values.

The purpose of the project is to produce an updated Comprehensive Plan that, derived from citizen and stakeholder input, provides a clear direction for development policy decisions, City services, and City projects for the next 10 to 20 years. It is the City's desire that there be meaningful community participation in the preparation of the plan and that the consulting team includes substantial opportunities for citizen participation in the planning process.

The City will be contracting with a firm to complete a community preference and satisfaction survey in the Fall of 2018. The results of this survey are intended to be utilized in the development of the Comprehensive Plan.

3.3 Scope of Work: The awarded consulting firm will work with City staff, elected and appointed officials and the community to develop an innovative, integrated and implementable Comprehensive Plan. Responding consultants are requested to prepare a detailed scope of work for consideration by a selection team. Respondents should outline the proposed methods for updating the Comprehensive Plan including how work activities will be conducted and creative recommendations for overall project approach. The final scope of services will be the result of negotiations between the City and the selected consultants as to how to best meet the City's goals for the planning process. The proposal should include, but is not limited to, recommendations for the following

- Vision and goals for each subject area desired by the community. A number of new areas (from 2009 plan) may be needed to address changing conditions and priorities
- Community Involvement
- Stakeholder and elected and appointed officials engagement
- Other group engagement (eg. technical advisory or advisory team)
- Integration with other City Plans
- Development of a future land use plan and urban development boundary
- Infill and Redevelopment Strategies
- Implementation strategies
- Coordination with the County for areas within the City's future growth area

3.4 Minimum Mandatory Qualifications of Offeror

The consultant's project manager shall have at least 5 years of planning experience with local governments and have lead or substantively assisted in the development of a local jurisdiction of like size comprehensive plan.
