C/O City of Grand Junction
250 North 5th Street
Grand Junction, CO 81506

Dear Stephanie and City of Grand Junction,

Thank you so for your past donations and your continued interest in helping The Art Center with its technology "wish list" items. We currently have an old video projector. This unit is used both for Art Center education and exhibition programs. It has been very upsetting to unplug a video work in the galleries so that we can do a PowerPoint presentation in another room. With two projectors we can have multiple presentations going on at once. *The Sharp Projector Model xGE3500U (in IT's position) would be a great addition to our programming on many levels.* We have so many deserving programs and exhibits that are only able to continue because of partnerships with organizations like The City of Grand Junction. Our community presenters, instructors, students and exhibiting artists would benefit greatly from this donation.

Thank you letting us know about the availability of this equipment and your continued support through technology donation.

Sincerely,

Camille Silverman
Executive Director
The Art Center
