Citizen Complaint

Policy-related

2/14/2019 2019-00025 Complainant was involved in a traffic accident and found she was not at fault. She was upset the officer did not get her side of the story about what happened and only took the at fault driver's story. Then when she received a copy of the accident report her children were not on the report and the accident diagram was inaccurate according to her. She spoke with a supervisor who explained the report was incorrect in not having her children's names on it, but the diagram was not inaccurate as the vehicles were moved prior to PD arrival. She became more upset and wanted a new diagram constructed as well as making a complaint on the Sgt. As he was rude and was talking over her.

2/11/2019 2019-00015 Message received from forensic scientist as CBI whom had a call for police assistance last night because of an aggressive/suspicious salesperson. "I had to call the police last night about a very persistent, rude salesman from Spectrum. Officer responded and was very kind and professional. We only spoke on the phone, but as I was explaining what occurred and giving him what little details I could about the car the guy was driving, he somehow tracked him down! It was impressive since I couldn't get a very good look at the car because it was way up the street from me and not in a well lit area, nor was it marked with the Spectrum logo. Officer really put my mind at ease of the scary situation"

2/11/2019 2019-00016 Citizen called in after being stopped by officer for turning from wrong lane of traffic. She was very complimentary of the officer and how he treated her and the warning he gave her. She stated he is one of our very fine officers and he was kind to her and the warning was gentle.

2/15/2019 2019-00020 Facebook message received: I was involved in a car accident Feb. 15th and Officer Christine Gregory came to my rescue. Also there was a crisis advocate with her and I didn't catch her name but I just want to say thank you to both of them. Officer Gregory carried my bumper while I drove my car out of traffic and to safety. Again thank you so much I was a little rattled and didn't get to thank them both.

Employee 1 None *Great customer Service*

Summary (crime scenes activity, court appearances, complex cases, use of resources, problems or unusual events):

The evidence technicians have been working on storage space issues by researching old cases and destroying or releasing evidence. We have also started to receive property crime cases back from CBI due to their new policy. We are receiving the cases in weekly batches, with the goal of having all the property cases back in our custody by the end of March. The chemists were also able to bring down the GJPD chemistry backlog at CBI considerably since the beginning of 2019, which has also allowed them to assist with the CBI backlog.
