Project Narrative Zone of Annexation for Vintage 70 This property, Vintage 70, has recently been annexed to the City of Grand Junction and must be assigned city zoning. property is fully developed as Vintage 70 Condominiums consisting of 14 multi-family buildings containing 54 units. The total density is approximately 5.2 units per acre. The development also includes a club house common to all units. The character of the area surrounding this development is all single or multi-family residential. The 12th Street Corridor Guidelines do not extend north of G Road and do not specifically address this development. The Guidelines do recommend residential development south of G Road. Based on existing uses, the Planning Department recommends Planned Residential zoning for this annexation. The plan would be recognized as the existing physical development on the site. changes will require processing and approval through the appropriate minor or major change provisions of the Zoning & Development Code. 89

STATUS & RECOMMENDATIONS:

The Vintage 70 development was zoned R-3 in the county. The city has no equivalent zone so we are recommending a Planned Residential zone and adaption of County R-3 standards for this zone.

Planning Commission Action

Recommend approval.
