REVIEW COMMENTS

Page 1 of 1

FILE #COU-95-4.7

TITLE HEADING:

Change of Use manufacturing of insulation to motor oil/lubircants distribution

LOCATION: 825 First Avenue

PETITIONER: Conservancy Oil of Grand Junction

PETITIONER'S ADDRESS/TELEPHONE:

P.O. Box 1677 Grand Junction, CO 81502 243-6934

8/25/95

PETITIONER'S REPRESENTATIVE:

Frank E. Peabody

STAFF REPRESENTATIVE:

NOTE: THE PETITIONER IS REQUIRED TO SUBMIT FOUR (4) COPIES OF WRITTEN RESPONSE AND REVISED DRAWINGS ADDRESSING ALL REVIEW COMMENTS.

Kathy Portner

COMMUNITY DEVELOPMENT DEPT.	8/23/95
Kathy Portner	244-1446

1. Must meet all Fire and Building Codes.

2. Confirm there will be no outdoor storage.

3. Flease submit original Change In Use Permit

GRAND JUNCTION FIRE DEPARTMENT

Hank Masterson244-14141.This proposal is acceptable to the Fire Department as long as the total amount of Class III-B
combustible liquids stored is kept below 13,200 gallons. If the number of 1000 gallon tanks
increases to 10, the total amount stored will exceed this exempt amount-requiring control
areas to be constructed in the building as per the building code.

2. The proposed containment area is acceptable and is of adequate size for the 48" diameter tanks proposed. These tanks must be listed for use as above ground tanks.

3. There will be dispensing of III-B liquids into and from the 1000 gallon tanks. If the dispensing is through open systems, the maximum quantity allowed is 3300 gallons.

4. A permit is required from the Colorado Department of Labor and Employment-Oil Inspection Section for the installation of any tank larger than 660 gallons. The installation must comply with State requirements.

5. Fire Department access is adequate. Existing hydrants and water lines are acceptable.

CITY DEVELOPMENT ENGINEER	8/28/95
Jody Kliska	244-1591

1. What was prior use?

2. What is anticipated traffic - how many trucks/day, number of employees at site, office hours?

FILE #COU-95-4.7 / REVIEW COMMENTS / page 2 of 2

CITY UTILITY ENGINEER Trent Prall	-	8/28/95 244-1590	-
Sewer: City	Milly Fowler	No Fees	

1. Please contact Utility Billing (244-1580) for more information regarding potential change in plant investment fees for sewer. The following information will be requested by Utility Billing: 1. number of employees.

2. Please provide information on containment of spills. Facilities should be in place to ensure no spills will enter sewer or storm drain systems.

Water: City

1. 1" Tap already on site.

RESPONSE TO REVIEW COMMENTS

FILE: #COU-95-4.7

LOCATION: 825 FIRST AVENUE

PETITIONER: CONSERVANCY OIL OF GRAND JUNCTION

PETITIONER'S ADDRESS/TELEPHONE: P.O. BOX 1677 GRAND JUNCTION, CO 81502 243-6934

COMMUNITY DEVELOPMENT DEPARTMENT

- 1. To the best of our knowledge the property and building meet all fire and building codes.
- There will be no outside storage of products. Empty drums and empty pallets will be stacked neatly in the enclosed yard prior to reuse, return, recycle, or disposal.
- 3. Original change in use report Please see attached.

GRAND JUNCTION FIRE DEPARTMENT

- Amount of Class III-B combustible liquids will be kept below 13,200 gallons. If the bulk storage increases to 10,000 gallons, control areas will be constructed as per the building codes.
- 2. The tanks are listed for use as above ground tanks.
- 3. Dispensing and receiving of Class III-B liquids will be through a closed system except for small quantities.
- 4. Verbal approval of the tank installation has been received from the State Oil Inspection Section.(Mr. Butch Gordley)

CITY DEVELOPMENT ENGINEER

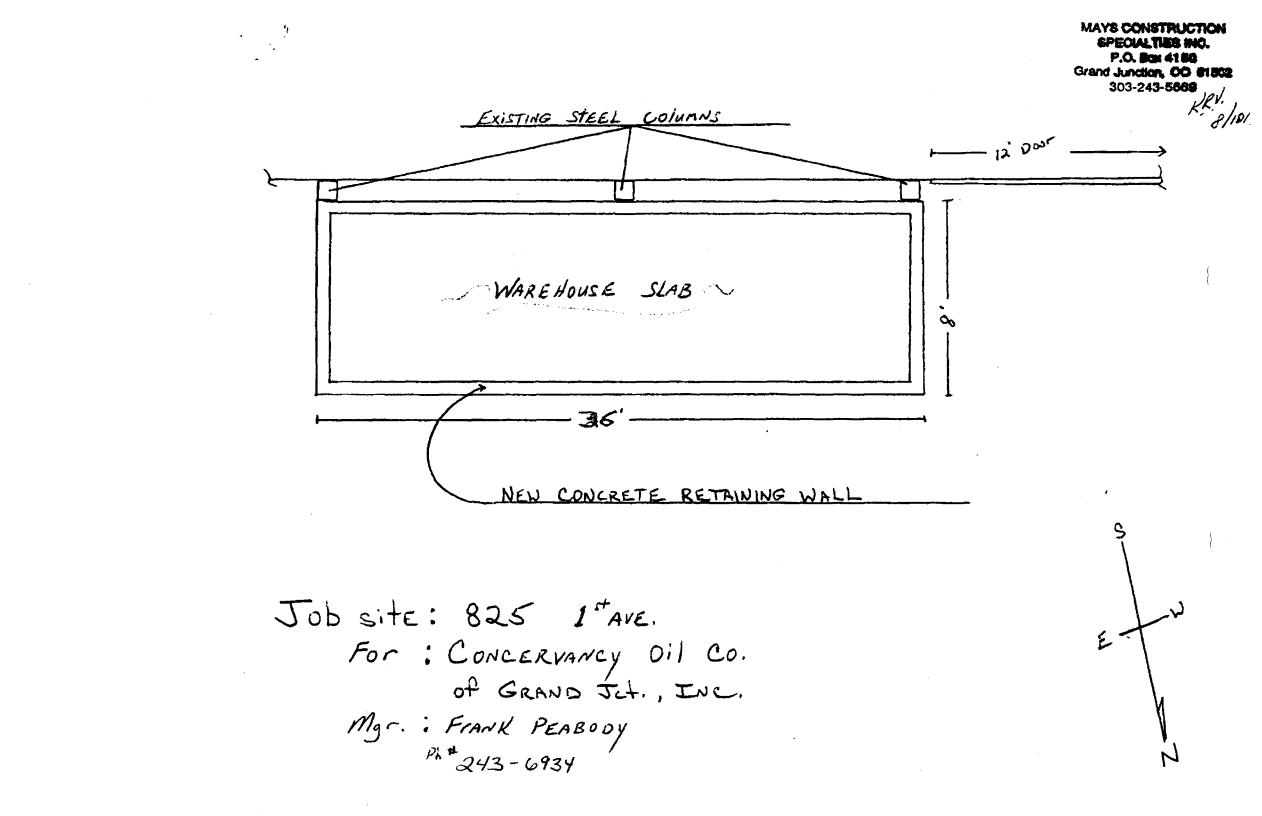

- 1. Prior use was a cellulose insulation manufacturing facility.
- There are two employees on site. Our one delivery truck will load, deliver and return on the average of once a day. Trucks delivering from suppliers will average about two per week. Office hours are 7:30am to 4:30pm Monday through Friday.

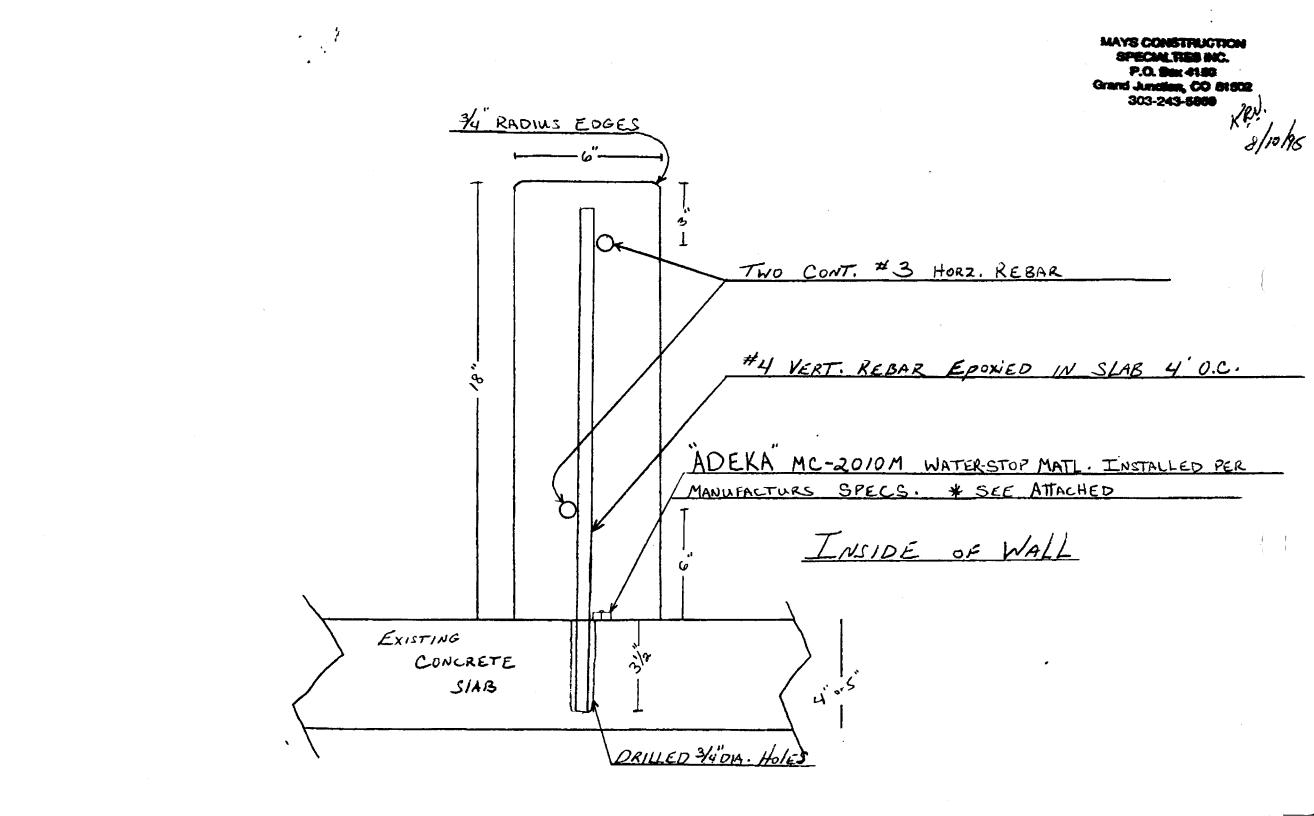

CITY UTILITY ENGINEER

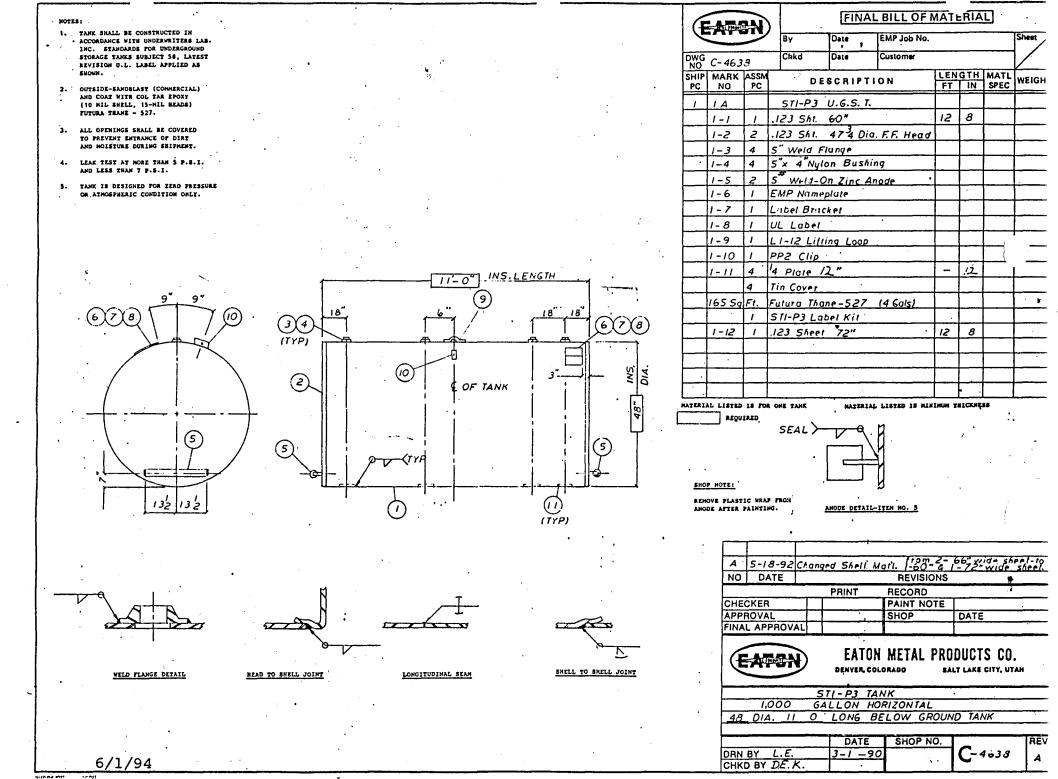

- 1. Utility Billing has been contacted concerning the number of employees.
- 2. Containment of spills All product transfer and storage will be done within the building using closed systems other than for small quanitites. Any spillage will be contained using floor-dry and other portable containment systems. Bulk storage tanks will be within an approved containment area. The nearest storm drain is approximately fifty feet from the building which provides adequate distance for containment before spills would enter the storm drains.
