General Project Report Munro Supply / Munro Properties Inc.

Munro Supply is in need of additional floor space for our continued operations at 808 South Ninth street in Grand Junction. At this time the plan would be to erect a metal building between two existing metal buildings known as 808 and 812 south ninth street. The property is titled in the name of Munro Properties Inc. and is the tax parcel known as 2945-231-10-001 which consists of ten 125 ft. by 25 ft. lots. This parcels area would be 31,250 sq. ft. of which we would be building on only the front 85 ft. . The two existing buildings are approximately 2000 sq. ft. and 2500 sq. ft. for a total of 4500 sq. ft. The new building would be approximately 3000 sq. ft. The new building would be used for warehouse and assembly type activities, and we feel that is consistent with most of the buildings in the surrounding area.

Our current access to the existing, fenced lot area to the east (behind) the existing buildings is in the same area as our purposed new construction. Our proposal would include moving this access approximately 50 ft.to the south which would be the site of the abandon alley way. We feel that this access movement would not have a significant impact on the traffic on south Ninth street. It would also be our intent to continue to use the access on to Third avenue between ninth and tenth streets. Both lot access would be mid block and should not pose a intersection problem.

Munro Supply parking has traditionally occurred along south Ninth street. In addition to the ten parking spaces on ninth street and the six parking spaces on third avenue we have an additional twenty spaces along ninth street located in the same proximity, and significant room in our graveled lot area which is located to the east of the purposed new buildings (over 15,000 sq. ft.). We currently have a employee level of three people in the 808 building and five people in the 812 building. We feel that the parking areas available are more than adequate to service our current employees and staff. It would not be our intention to increase employment in this area based on additional building availability. Munro Supply's historical high, employee level was 22 in 1982. Our total current employee level is 15, and it is possible that we might add one clerical position to be officed in one of our existing buildings in fiscal 1996. We can however state that in and of itself no new jobs will be created by this new building.

TITLE HEADING:

Site Plan Review -Warehouse Addition

LOCATION: 808 S. 9th Street

PETITIONER: Allen Munro

PETITIONER'S ADDRESS/TELEPHONE:

808 S. 9th Street Grand Junction, CO 81501 242-6810

PETITIONER'S REPRESENTATIVE:

John Newell/Phipps-Newell Const. Inc.

STAFF REPRESENTATIVE: Michael Drollinger

NOTE: WRITTEN RESPONSE (4 COPIES) BY THE PETITIONER TO THE REVIEW COMMENTS IS REQUIRED. A PLANNING CLEARANCE WILL NOT BE ISSUED UNTIL <u>ALL</u> ISSUES HAVE BEEN RESOLVED.

CITY ATTORNEY	02/06/95
Dan Wilson	244-1505

None.

MESA COUNTY BUILDING DEPARTMENT	02/06/95
Bob Lee	244-1656

I have reviewed this proposal with Mr. Munro and John Newell and have conducted an on site inspection of the property. No comments.

GRAND JUNCTION FIRE DEPARTMENT	02/08/95
Hank Masterson	244-1414

A fire flow survey is required-submit a complete set of building plans to the Fire Department. Existing fire hydrants are adequate if the required fire flows can be provided.

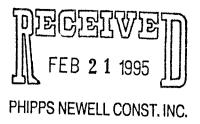

COMMUNITY DEVELOPMENT DEPARTMENT	02/14/95
Michael Drollinger	244-1439

See attached comments.

CITY DEVELOPMENT ENGINEER	02/14/95
Jody Kliska	244-1591

Drainage Fee will be \$239.43.

Michael Drollinger Community Development Department City of Grand Junction 250 North 5th Street Grand Junction, Colorado 81501-2668

File # SPR-95-27 Warehouse Addition

Dear Mr. Dollinger

I have been requested, via your staff review comment report, to confirm in writing that our proposed warehouse addition will generate fewer than thirty trips per day. Based on our projected use of this property we feel that thirty trips per day would be more than adequate for the foreseeable future. Munro Supply Inc. dose not have plans that would require more than thirty trips per day of loading area access related to our purposed new building.

Munro Supply Inc.

Allen J. Munro/ President

STAFF COMMENTS:

1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 1997 -

1. Applicant's narrative states that no additional employees will be associated with the proposed warehouse addition, thus, as per Code no additional parking spaces are required.

2. The proposed 420 square foot landscaped area meets Code requirements.

3. The petitioner shall provide written confirmation that the traffic which will access the loading area of the proposed warehouse via a graveled lot will number less than 30 trips per day. City Code Section 5-1-4A(1) requires paving of all vehicular traffic areas except in cases of overflow parking or low-traffic storage yard (defined as 30 trips per day or less).

PLEASE TAKE NOTE OF THE FOLLOWING:

1. ALL SIGNS TO BE ERECTED ON THE SITE WILL REQUIRE A SIGN PERMIT <u>PRIOR</u> TO INSTALLATION OF THE SIGN.

2. SITE IMPROVEMENTS (INCLUDING LANDSCAPING) MUST BE CONSTRUCTED IN ACCORDANCE WITH THE APPROVED PLANS. ANY MODIFICATIONS MUST BE APPROVED, IN WRITING, BY THE COMMUNITY DEVELOPMENT DEPARTMENT. FAILURE TO INSTALL SITE IMPROVEMENTS AS PER THE APPROVED PLANS MAY DELAY THE ISSUANCE OF A CERTIFICATE OF OCCUPANCY.

3. SITE IMPROVEMENTS (E.G. LANDSCAPING, SIDEWALK, ETC.) NOT COMPLETED PRIOR TO ISSUANCE OF A CERTIFICATE OF OCCUPANCY MUST BE GUARANTEED.

You are urged to contact the Community Development Department if you require clarification or further explanation of any items.
