Mr. Kreg Obergfell
380 34 Road
Palisade, Colorado 81526

Dear Kreg,

Congratulations! The Grand Junction City Council, at its April 3, 1996 meeting designated the Old Goodwill Building on the City Register of Historic Sites, Structures, and Districts. As you are aware, this makes the structure eligible for historic preservation funds as are currently available through the Colorado Historical Society's State Historic Fund.

The enclosed resolution has been recorded in the records of the Mesa County Clerk and Recorder and will be forwarded to the Colorado Historical Society for their records as well. Please do not hesitate to contact me if you have further questions about this historic designation.

Sincerely,

A handwritten signature in cursive script, appearing to read "Kristen", followed by a horizontal line.

BACKGROUND INFORMATION

a planned development that is consistent with gross density limits (see policy 1.5 regarding density bonuses) and achieves community goals for land use compatibility, housing affordability and open space preservation.

Goal 12: To enhance the ability of neighborhood centers to compatibly serve the neighborhoods in which they are located.

Policy 12.1: The City and County will encourage the retention of small-scale neighborhood commercial centers that provide retail and service opportunities in a manner that is compatible with surrounding neighborhoods.

Policy 12.2: The City and County will limit the development of large scale retail and service centers to locations with direct access to arterial roads within commercial nodes shown in the Future Land Use Map.

Policy 12.3: The City and County will protect stable residential neighborhoods from encroachment of incompatible residential and non-residential development.

Goal 13: To enhance the aesthetic appeal of the community.

Policy 13.1: The City and County will establish heightened aesthetic standards and guidelines for the gateway areas and high visibility corridors listed in Exhibit 9 and mapped in Exhibit 10.

Policy 13.2: The City and County will enhance the quality of development along key arterial street corridors. Existing corridor plans listed in Exhibit 9 will remain in effect. Until these plans are updated, the Urban Area Plan will prevail when corridor plans are inconsistent with this plan.

Policy 13.3: The City and County will foster improved community aesthetics through improved development regulations addressing landscaping, screening of outdoor storage and operations, building orientation, building design signage, parking lot design and other design considerations.

Goal 14: To encourage public awareness and participation in community activities.

Policy 14.1: The City and County will maintain open planning processes, providing opportunities for all affected parties to participate in public workshops and hearings involving plan amendments, area planning and periodic plan reviews.

Economy

Goal 17: To promote a healthy, sustainable, diverse economy.

- Policy 17.1: The City and County will support efforts to attract and retain moderate-sized, clean and stable industries that provide appropriate and diverse employment opportunities for community residents.
- Policy 17.2: The City and County may consider incentives to attract prospective industrial employers and encourage expansions of existing industries that are consistent with the goals and policies of the Urban Area Plan.
- Policy 17.3: The City and County will support public and private projects which increase the attractiveness of the community for residents and tourists.
- Policy 17.4: The City and County will coordinate with appropriate entities to identify and address the public service needs of small businesses and major employers in the community.

Goal 18: To maintain the City's position as a regional provider of goods and services.

- Policy 18.1: The City and County will coordinate with appropriate entities to monitor the supply of land zoned for commercial and industrial development and retain an adequate supply of land to support projected commercial and industrial employment.
- Policy 18.2: The City and County will protect industrial land from residential development which limits the community's industrial development potential. Rezoning of industrial land to a residential district will not be considered unless it is consistent with the Urban Area Plan and there is a sufficient supply of industrial land in appropriate locations to meet demands for the next 10 years.

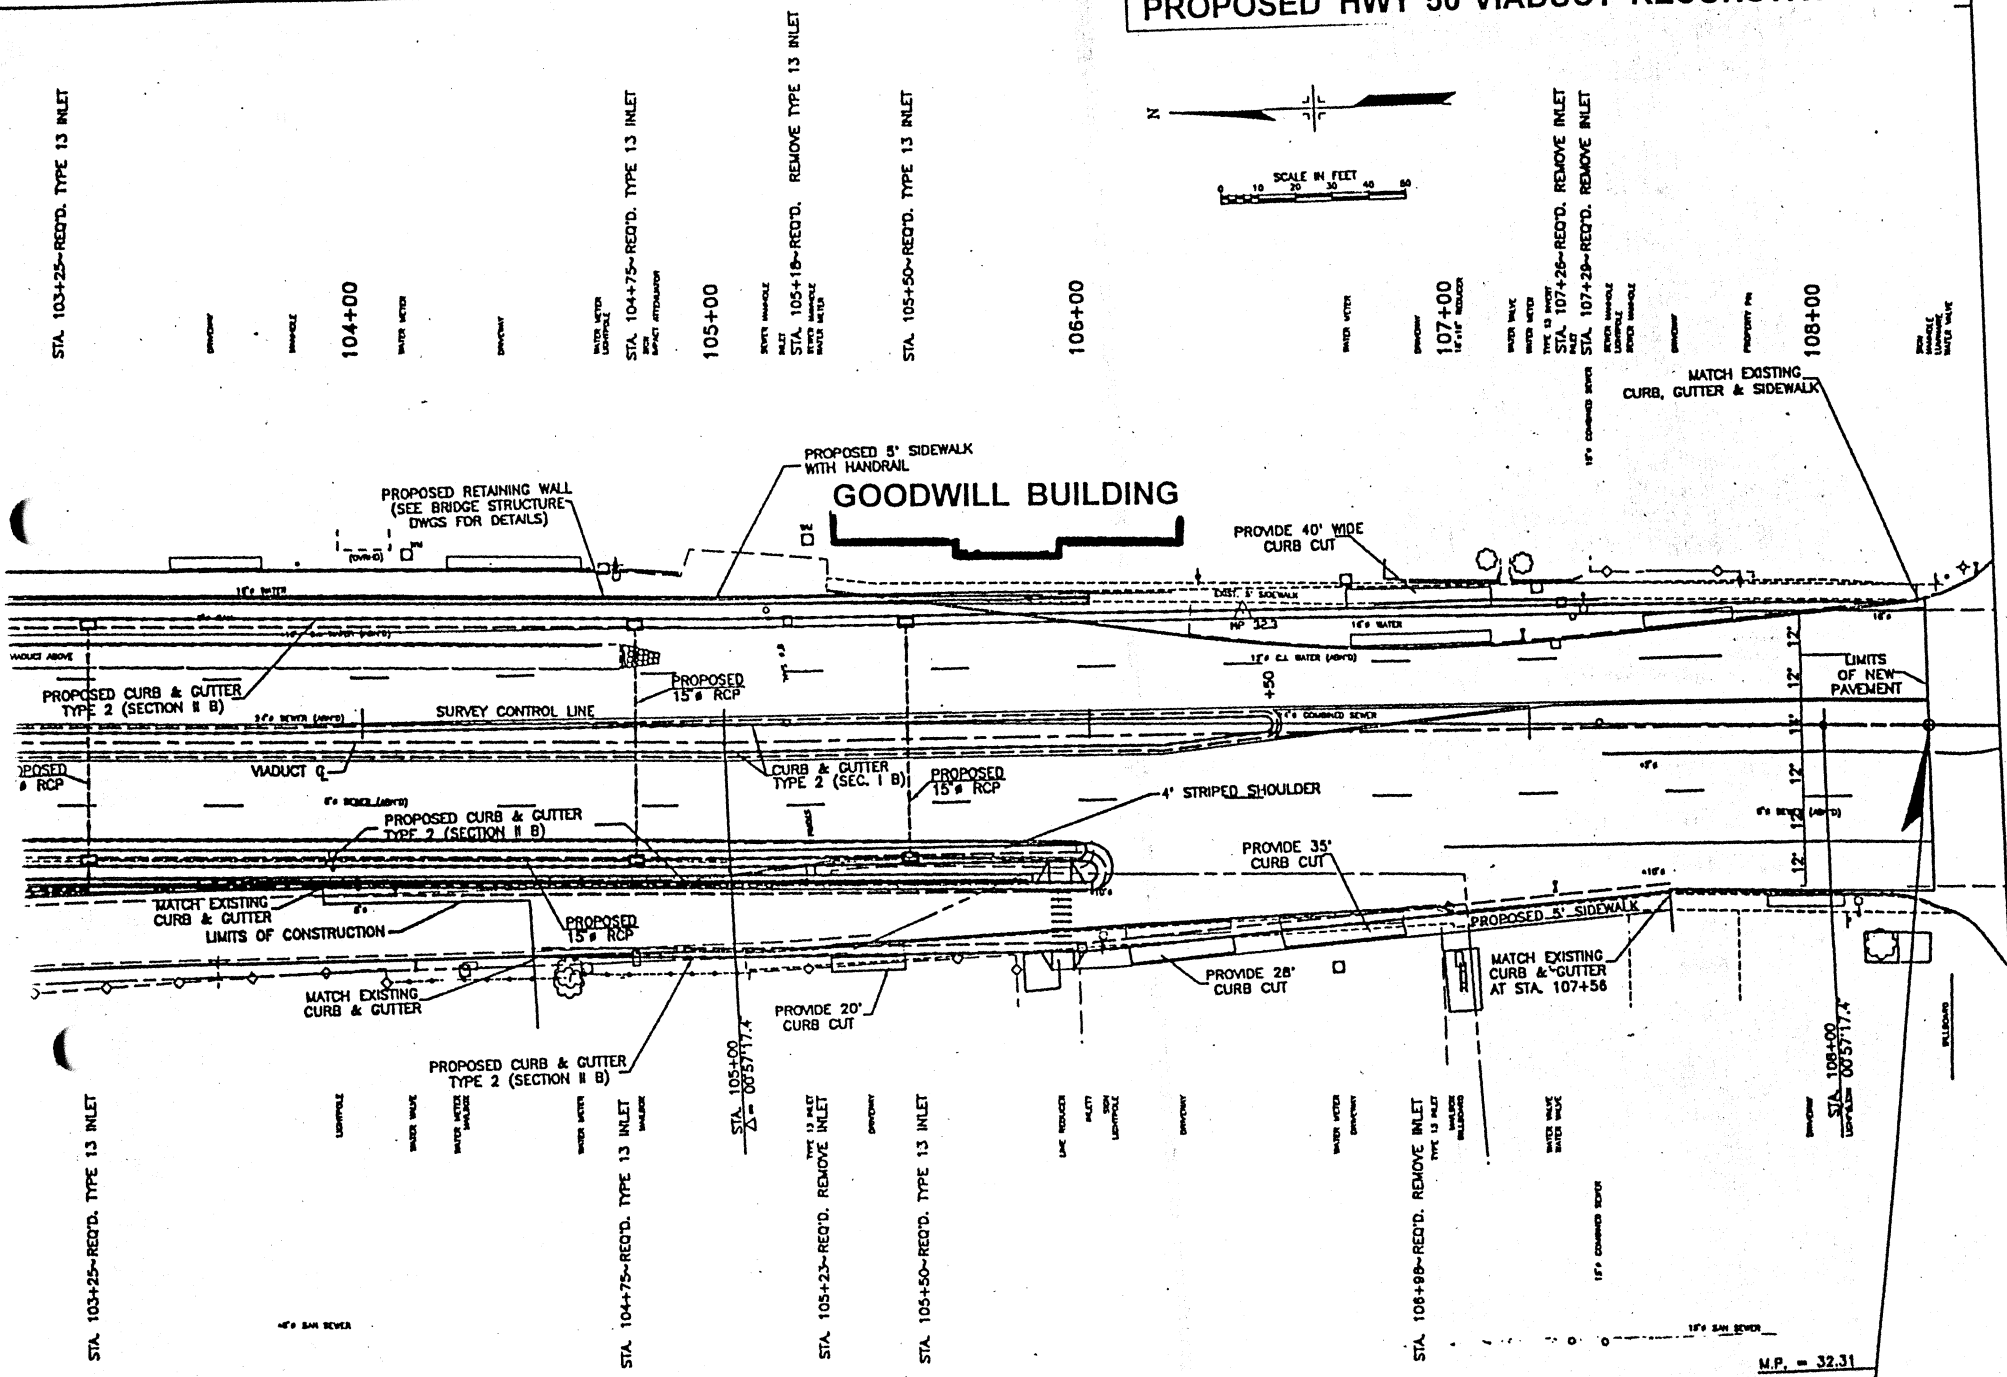

Cultural/Historic Resources

Goal 19: To retain and preserve historic and cultural resources that symbolize the community's identity and uniqueness.

- Policy 19.1: The City and County will support efforts to inventory and list valued historic structures.

Action Item #	Recommended Actions	Related Policies	Priority	Schedule Year	Action Tools	Responsible Entities	Funding Source
52	Adopt requirement for appropriate findings prior to rezoning or plan amendment. Such findings should address consistency with the plan, compatibility and residential neighborhood stability and character.	12.1-12.3		96-97	Dev. Code	City/County	
GOAL 13 To enhance the aesthetic appeal of the community.							
53	Revise code standards for location and screening of outdoor storage, streetscaping, landscaping, signage, lighting, building orientation, building materials and parking lot design. Establish gateway and corridor overlay districts for more stringent application of these standards.	13.1-13.3		96-97	Dev. Code Zoning	City/County	
54	Use the area plan process to develop area specific strategies for corridors and neighborhoods with unique needs. Existing criteria which has general applicability should be incorporated in the zoning and development code. <i>(see detailed recommendations for corridor guidelines in Appendix)</i>	9.2		Ongoing	Area Plans Dev. Code	City/County	
55	Prepare a corridor design plan for Hwy. 50 and South Fifth Street, extending from the river and north to Grand Street, that provides for redevelopment of this downtown gateway.	13.1-13.3 17.3		97-98	Design Plan	City	
GOAL 14 To encourage public awareness and participation in community activities.							
56	Designate a communications liaison to promote and coordinate citizen participation in public planning and decision-making processes.	14.1-14.5	1	Ongoing	Communi-cations Liaison	City	
57	Establish a citizens hot line to collect comments on planning and service issues	14.3	1		Hot Line	City/County	
58	Designate a staff liaison for neighborhood groups.	14.2-14.5	1		Staff liaison	City/County

Planning Department
250 North Fifth Street
Grand Junction, CO 81501-2668

Dear Kris,

Please accept this information as an indication of our interest in having the Van Gundy/Goodwill building considered for historic designation.

Description: The "mission style" building has stucco exterior walls with detailed ornamental relief around the arched entry and along the cornice. The original building is cruciform in plan, and contains an auditorium space.

Features for preservation consideration: Research indicates this building was constructed in 1927-28. It was headquarters of the Goodwill organization which provided social services to Grand Junction residents for many years. The architecture is very distinctive, there are few buildings of this style in the area.

Address: 1018 South 5th Street
Lots 9 + 10 BLK 1 South 5th Street Subdivision

Parcel Number: 2945-232-02-035

If any additional information is required, please contact me.

Sincerely,

Kreg Obergfell

construction history (description, names, dates, etc. relating to major additions or alterations to original structure)

The original Goodwill Industries building was constructed in 1927 as a "T"-shaped structure that faced South 5th Street. In the 1930s, an addition was constructed along the south side of the building as a barracks for Civilian Works Administration (CWA) workers. A second addition on the north side of the building was constructed in the 1950s to expand storage

continued yes no

historical background (discuss important persons and events associated with this structure)

Clyde Hunter Biggs was a prominent western Colorado businessman and industrial leader who lived in Grand Junction from 1915 until his death in 1952. Mr. Biggs was president of Biggs-Kurtz Company and vice president of Independent Lumber Company. He was prominent not only in the business life of the community and western slope, but also in cultural and community pursuits. Among Mr. Biggs' civic interests was Goodwill Industries which he helped to found and of which he was a board member for many years. Goodwill Industries was a national group known for operating thrift stores and providing services for retarded and handicapped people. Clyde Biggs was instrumental in the

continued yes no

significance (check appropriate categories and briefly justify below)

architectural significance:

- represents the work of a master
- possesses high artistic values
- represents a type, period or method of construction

historical significance:

- associated with significant persons
- associated with significant events or patterns
- contributes to an historic district

statement of significance

The Goodwill building is significant because of its relationship to Mr. Clyde Biggs and Goodwill Industries. Mr. Biggs was a prominent businessman who was instrumental in the establishment of Goodwill Industries in Grand Junction and served on the board at the time the first building was constructed. Goodwill Industries has a national reputation for providing social services to the retarded and handicapped. Goodwill continues to provide these services within the Grand Junction community. The Goodwill building is also significant because of its architectural detailing in the Mission/Mediterranean style that is rare in the Grand Junction area.

-------------------------------------	------------------------------------	-------------------

ARCHITECTURAL DESCRIPTION Continued

This fairly simple structure has elements of Mission/Mediterranean style such as the stucco exterior finish, the low-pitched gable roofs, and an arched entry. The front or west-facing facade is dominated by the central bay which features detailed ornamental relief around the recessed, arched entry and along the cornice. The relief also forms "columns" which divide the entry from small, single windows on either side. A short flight of concrete steps leads to the double wooden doors which each have a six-light glass panel. There is a semi-circular arched transom above the doors of ornate leaded glasswork.

The wings on either side of the central bay each have four evenly spaced four-pane square windows. The ends of the wings each have a pair of six-over-six double hung windows towards the front of the building. There is no ornamentation on these wings.

Additions have been constructed on the building which have resulted in a horseshoe-shaped building footprint rather than the original "T" shape (refer to the plan shape on the Inventory Record form). The first, a wooden addition along the south side of the "T" was constructed in the 1930s as a barracks for Civilian Works Administration (CWA) workers. This addition has fallen into a state of disrepair and the current owner has intentions of demolishing it.

On the north side of the "T", a concrete block addition was constructed in the 1950s. While it is a large addition, it was placed off the street and behind the main part of the original building. Thus, it is not seen in the primary vies of the building and does not visually detract from the architectural integrity of the original building.

CONSTRUCTION HISTORY Continued

and retail area for Goodwill Industries functions. More recent upgrades to the building within the last few years have included general repairs and maintenance and replacement of some windows.

HISTORICAL BACKGROUND Continued

construction of the first building used by Goodwill Industries at 1018 South 5th Street (previously addressed as 1024 South 5th Street).

The building was used by Goodwill Industries as its retail and service center as well as a school for the mentally retarded children of the community. Financial problems surfaced in the 1960s and Goodwill moved to its present location on 28-1/2 Road. The VanGundy's continue to utilize the building as warehouse/storage for the family salvage business.

STAFF REVIEW

DATE: March 28, 1996

REQUEST: Historic Designation of the Old Goodwill Building in the City Register of Historic Sites, Structures and Districts

LOCATION: 1018 South 5th Street

PETITIONER: Kreg Obergfell / Dean H. VanGundy et.al.

STAFF: Kristen Ashbeck

EXECUTIVE SUMMARY: Architect Kreg Obergfell, on behalf of the VanGundy family, is requesting designation of the old Goodwill Building located at 1018 South 5th Street in the City Register of Historic Sites, Structures and Districts.

BACKGROUND/STAFF ANALYSIS: City Council adopted section 5-14, Historic Preservation, in the Zoning and Development Code in 1994 which established a City Register of Historic Sites, Structures and Districts, to which eligible historic resources may be designated. The criteria by which the Historic Preservation Board and Council shall review a proposed designation are specified in the ordinance.

The following pages describe the characteristics of the old Goodwill Building which justify its designation and detail the particular features of the building that should be preserved. Given this description, the Historic Preservation Board finds that the old Goodwill Building meets the following designation criteria outlined in section 5-14-6 of the Zoning and Development Code:

- Structure is at least 50 years old;
- Exemplifies specific elements of an architectural style or period;
- exemplifies cultural, political, economic or ethnic heritage of the City;
- Enhances the sense of identity of the City; and
- Is associated with a notable person in the community.

In reviewing this nomination, members of the Historic Preservation Board expressed concern as to whether a historic designation of this building would hinder any plans the City has for this part of South Downtown (see attached minutes of January 8, 1996 meeting). The Draft Growth Plan indicates the area within which the Old Goodwill Building is located is a gateway to the Downtown and should be redeveloped. Copies of Goals 13 and 17 and related Recommended Action #55 are attached. The Draft Future Land Use Map for this area suggests that the area adjacent to 5th Street between the viaduct and the bridge be redeveloped as a greenway or open space corridor.

The Public Works Manager contacted Mr. Rich Perske with the Colorado Department of Transportation (CDOT) regarding any potential impact the designation might have on the 5th Street Viaduct Reconstruction project. Mr. Perske stated that the historic designation would have no impact on the viaduct project since CDOT is not acquiring any additional right-of-way for the reconstruction.

However, the Public Works Manager did feel that the historic designation was not consistent with plans for this area of downtown. In his estimation, the building would have to be removed to fit into the open space concepts proposed. The Parks Planner with the City Parks and Recreation Department also indicated similar concerns--since the building does not have much right-of-way in front of it or much space behind it, the building may be a physical barrier to creating a greenway corridor.

The Historic Preservation Board considered this information but it was determined that the building should be considered by the Historic Preservation Board on its historic merits relative to the criteria in section 5-14-6 of the Zoning and Development Code and that a designation would encourage further improvement of the building. Additionally, the Board felt that the building could fit into and possibly enhance the proposed park/open space corridor concept for the area (refer to the attached minutes from the February 5, 1996 meeting).

Historic designation of the Goodwill Building in the City Register has no consequences other than it allows the owner to be eligible for certain incentives such as grants and state and federal tax credits. The only consequence of doing major modification to or completely demolishing the building is removal of the building from the local register. The property owner has already applied for a grant through the Colorado Historical Society's State Historical Fund to be used to conduct a feasibility study of the building. Announcement of the award will be April 17, 1996. If the Goodwill Building is not designated on the local register, the owner could pursue designation on the State Register of Historic Places in order to be eligible for the same incentives.

Dear Kris,

The Goodwill Building has many potential uses of value to the community. Our intention is to use the building to sell antiques and collectibles. A portion of the building will continue to serve our recycling business.

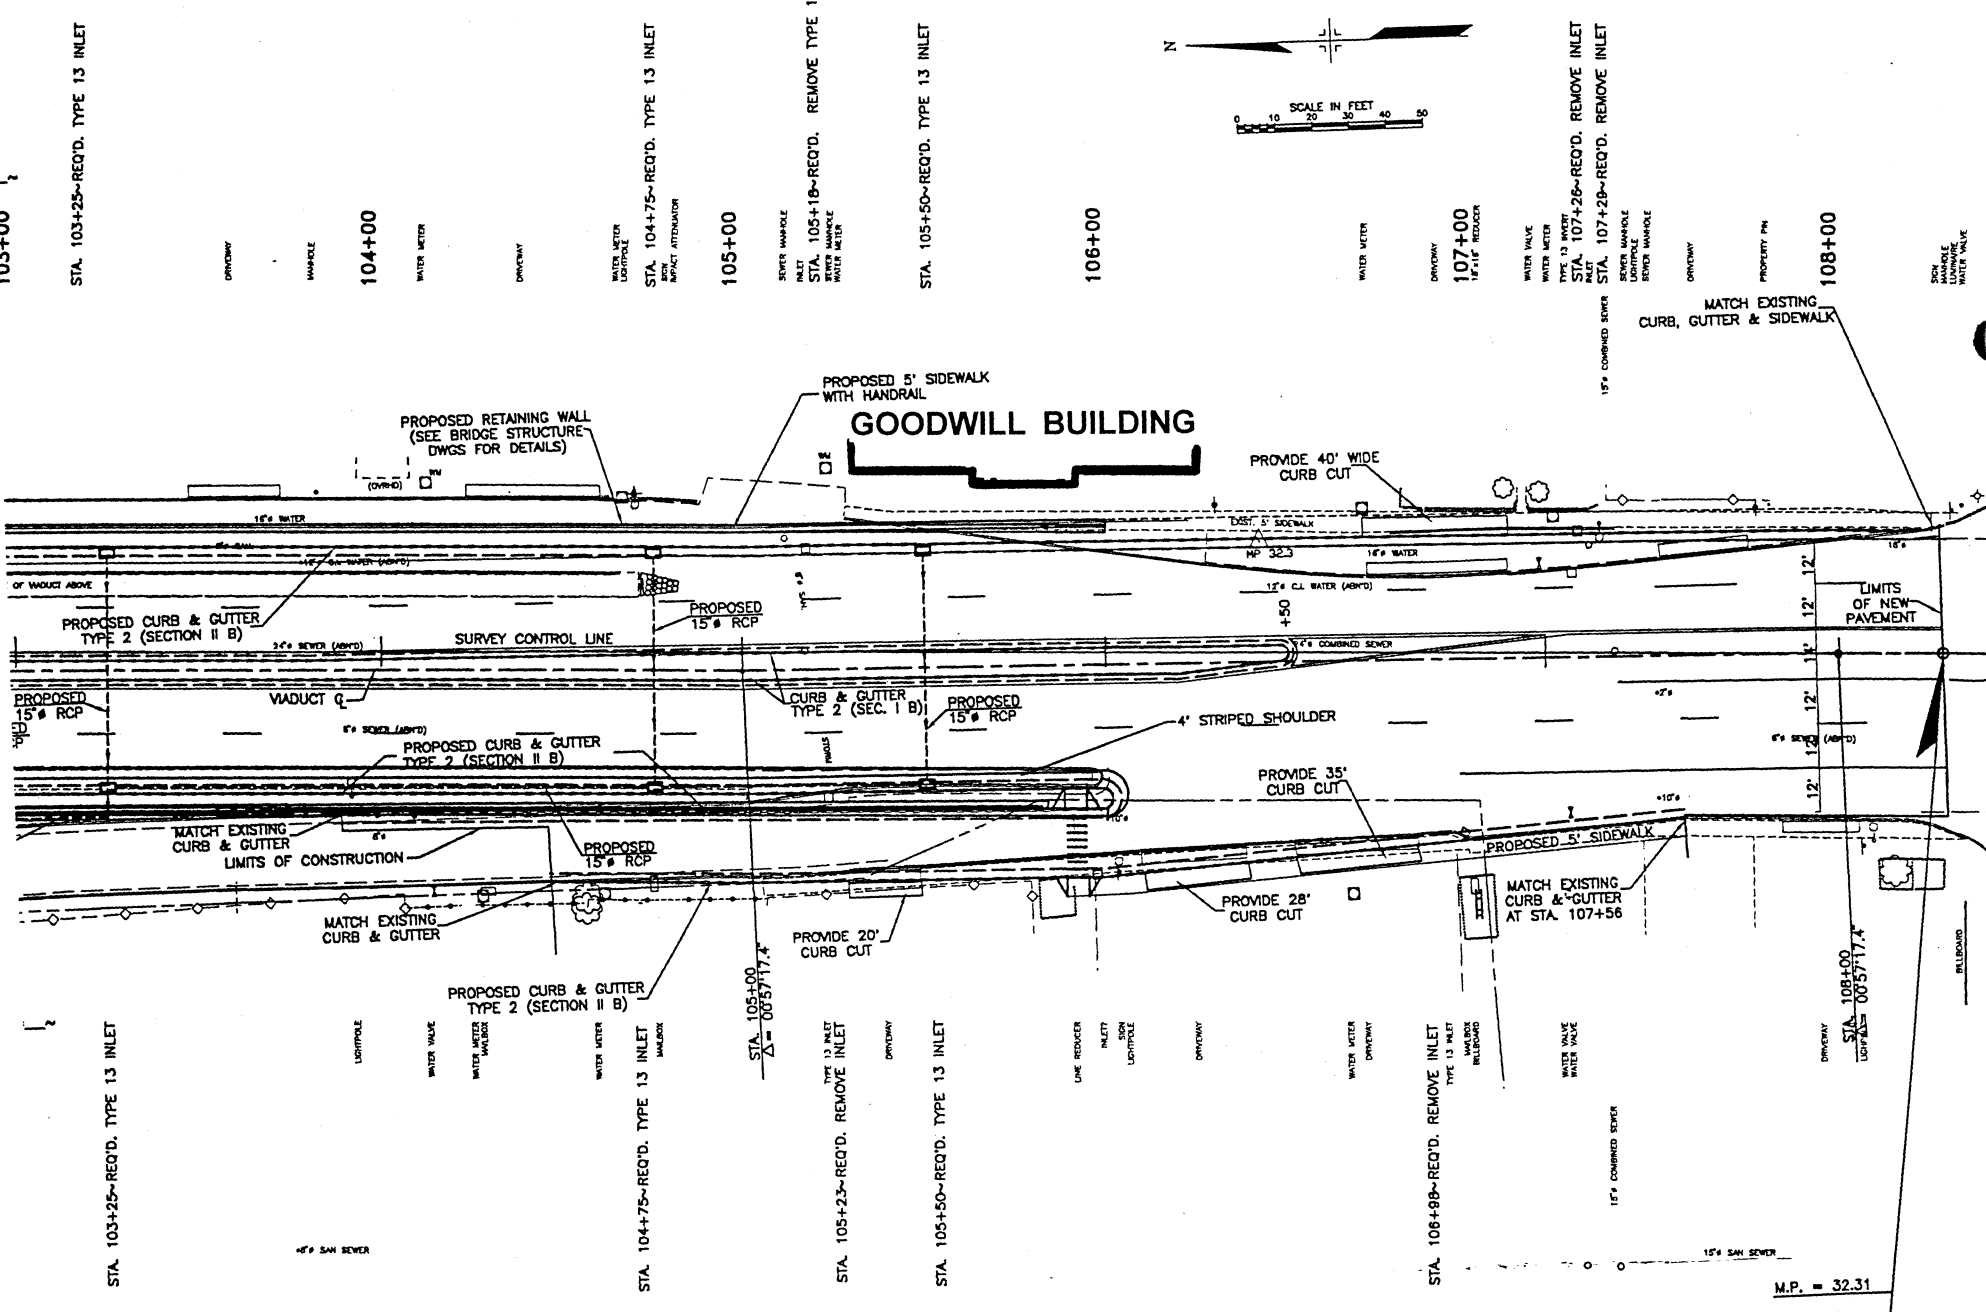

As you know there is a fair amount of work to be done to restore and preserve the building. We have replaced windows and painted the stucco in an effort to protect the building from the elements. The next step is to repair the roof.

Please call if you have any questions.

Sincerely,

Dean VanGundy
